Response to Amendment

1. Applicant's amendment filed on 12/02/2005 has been entered. No claims have been canceled. No claims have been added. Claims 1-27 and 40-41 are still pending in this application, with claims 1, 11, 21, 40 and 41 being independent.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

The applied reference has a common assignee with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in

Art Unit: 2642

the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

3. Claims 1-27 and 40-41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brown et al (US PAT # 6, 826,276).

The disclosure is substantially the same as Brown reference (see col. 5, lines 32-42).

4. Claims 1-27 and 40-41 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Brown et al (US # 20030103619).

The disclosure is substantially the same as Brown et al, reference (see abstract of the invention and P.1).

Response to Arguments

5. Applicant's arguments filed 12/02/2005 have been fully considered but they are not persuasive.

First of all, the double patenting "Statement" (office action dated 9/8/05, page 3 paragraph 5) was <u>not</u> directed to the Brown et al. references (US patent # 6, 826,276 and US printed application # 20030103619). The Brown et al. references were clearly

applied under 35 U.S.C 102(e). The Examiner had required applicant to inform PTO about all <u>related</u> Patents/applications that belong to the same assignee.

Second, Regarding applicant's main argument that Brown "do not teach caller identity authentication", Examiner respectfully disagrees. Brown et al. (patent 6,826,276) specifically teach several authentication steps. Brown et al. teach that a caller ID will be compared with the caller profile database at step 98 (see col. 9, lines 1-4 and Fig. 6). Then, at step 100, a determination will be made of whether a caller ID matches a caller profile or not (Fig. 6). Thus, authenticating the caller in Brown et al. is a necessary feature especially in the scenario of redeeming the advancement tokens in order to prevent unauthorized callers from redeeming these advancement tokens.

Again, examiner believes that all claims are clearly anticipated by Brown (US patent # 6, 826,276) and Brown printed application (# 20030103619). Applicant is advised to carefully re-read the disclosure of these references.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Application/Control Number: 10/015,382

Art Unit: 2642

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rasha S AL-Aubaidi whose telephone number is (571) 272-7481. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad F. Matar, can be reached on (571) 272-7488.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
